**Important - Please read these instructions fully before starting assembly**

**SAFETY AND  
CARE ADVICE**

**NO POWER TOOLS**

**SAFETY AND CARE ADVICE**

- Check you have all the components and tools listed.
- Remove all fittings from the plastic bags and separate them into their groups.
- We do not recommend the use of power drills/drivers for inserting screws, as this could damage the unit. Only use hand screwdrivers and Allen keys.
- Keep children and animals away from the work area, small parts could cause choking if swallowed.
- Make sure you have enough space to layout the parts before starting.
- Assemble the item as close to its final position (in the same room) as possible.
- Do not overtighten the nuts to avoid causing damage to the threads.
- Only clean using a damp cloth and mild detergent, do not use bleach or abrasive cleaners.
- From time to time check that there are no loose screws on this unit
- This product should not be discarded with household waste. Take to your local authority waste disposal centre

## IMPORTANT INFORMATION

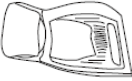

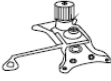

45 MINUTE  
BUILD

MAXIMUM  
CAPACITY 130Kg

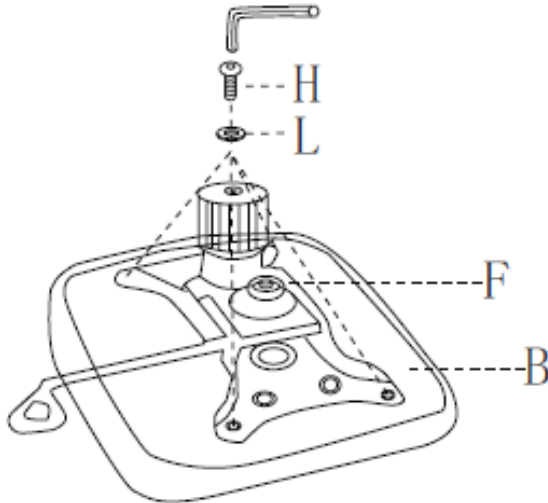

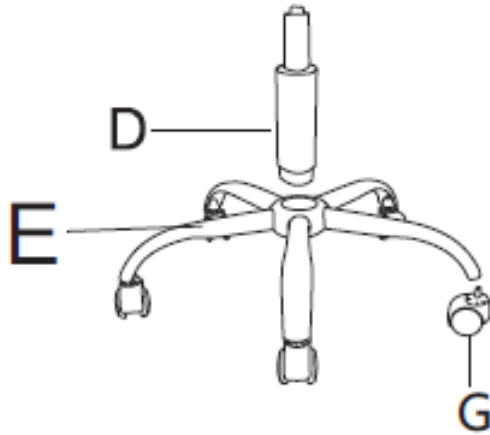

PLEASE CHECK CAREFULLY AND MAKE SURE YOU HAVE ALL  
FITTINGS AND TOOLS LISTED BELOW BEFORE YOU START.

A×1 	F×1 	C×2 	H×4  M6*20
B×1 	G×5 	D×1 	I×8  M6*25
K×1 	L×4 	E×1 	J×8 

**NOTE:** The quantities above are the correct amount to complete the assembly. In some cases more fittings may be supplied than are required.

## STEP 1

Use a clean, flat, soft surface to avoid any bumps or scratches. Attach the castor wheels [G] to each of the 5 leg spokes on base [E] - these should pop into place. Then place hydraulic lift [D] into the hollow within the legs base [C] (the thicker end of the hydraulic lift goes into the legs base).

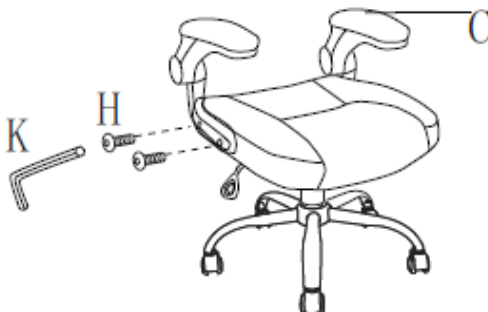

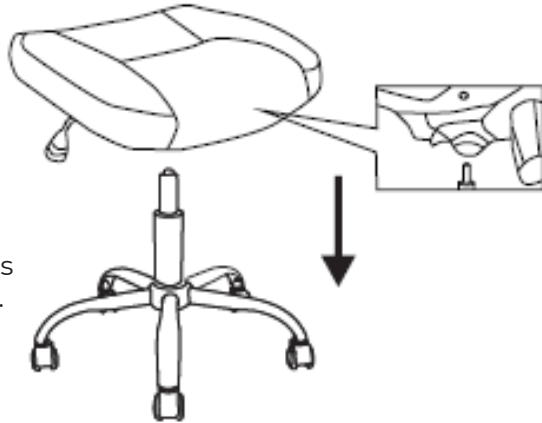

## STEP 2

Attach lifting mechanism [F] to the bottom of the seat base [B]. Use 4x washers [L] followed by 4x bolts [H] and tighten with Allen key [K].

### STEP 3

Carefully ensure your seat legs are upright, and then lower the seat onto the top of the hydraulic lift. Your weight, when you sit on it, will ensure the seat and legs remain securely connected.

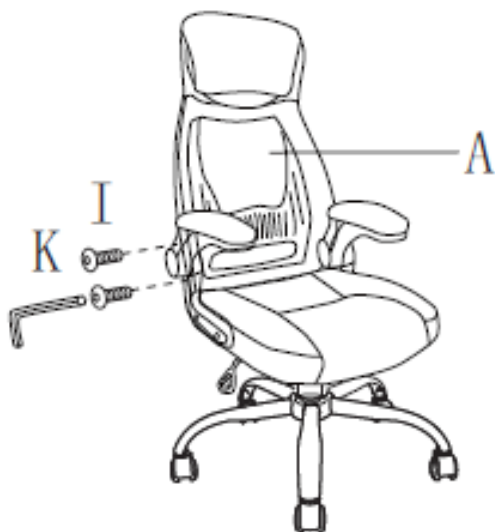

### STEP 4

Attach the 2x arms [C] to the seat base [B]. Use 2x bolts [H] per arm and tighten with Allen key [K].

## STEP 5

Attach the seat back [A] to the seat base and arms using 2x bolts [I] on either side.

## STEP 6

**ATTENTION:** Cover all exposed bolt heads with the covers [J] - x4 on either side. Check overall stability. Your chair is now ready to use.
