NOTE: The quantities above are the correct amount to complete the assembly. In some cases more fittings may be supplied than are required.

Construct your furniture on a nice flat, soft surface like a carpet, rug, or the lawn, to avoid any bumps and scratches. First, lay out all your pieces and check you have all the items listed on the inventory.

STEP 1

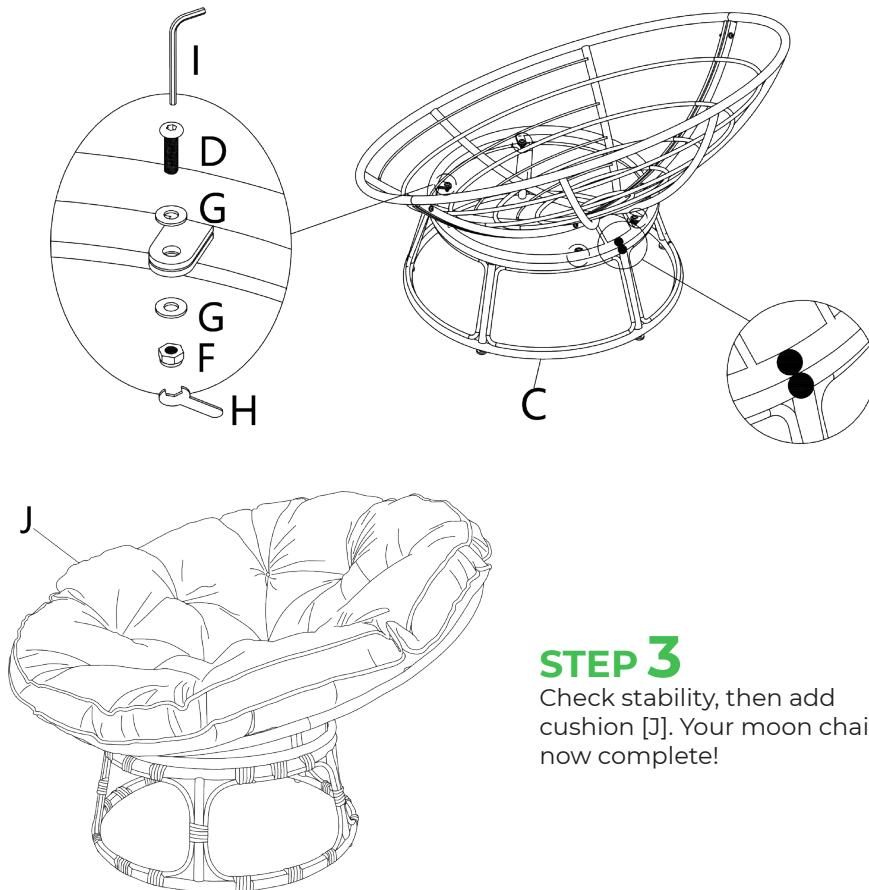

Connect the two halves of the seat [A] and [B]. Use bolt [E] + 1x washer [C] on one side of the holes and secure with 1x washer [C] + 1x nut [F] on the other side of the holes. Do this 4 times at the locations shown in the illustration. Thread bolts from seat section [A] down towards bottom section [B]. Don't fully tighten the bolts until all seat components are in place.

STEP 2

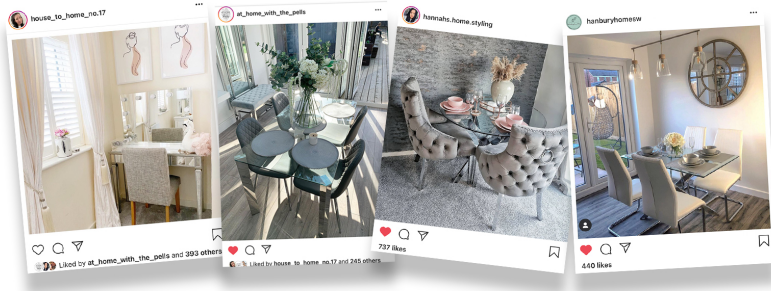

Carefully, and with help, place the seat on the base [C]. Ensure that the two black dots on the seat frame and the base line up before securing anything. Once aligned, connect seat to base using 1x bolt [D] + 1x washer [G] down from top to bottom, and secure with 1x washer [G] + 1x nut [F] on the other side of the hole. Repeat this 4 times at the locations shown in the illustration.

Once everything is in place, go ahead and tighten all the bolts, but take care not to over-tighten.

STEP 3

Check stability, then add cushion [J]. Your moon chair is now complete!
