### **SAFETY AND CARE ADVICE**

### **NO POWER TOOLS**

#### **SAFETY AND CARE ADVICE**

- Check you have all the components and tools listed.
- Remove all fittings from the plastic bags and separate them into their groups.
- We do not recommend the use of power drills/drivers for inserting screws, as this could damage the unit. Only use hand screwdrivers and Allen keys.
- Keep children and animals away from the work area, small parts could cause choking if swallowed.
- Make sure you have enough space to layout the parts before starting.
- Assemble the item as close to its final position (in the same room) as possible.
- Do not overtighten the nuts to avoid causing damage to the threads.
- Only clean using a damp cloth and mild detergent, do no use bleach or abrasive cleaners.
- From time to time check that there are no loose screws on this unit
- This product should not be discarded with household waste. Take to your local authority waste disposal centre

**NOTE:** The quantities above are the correct amount to complete the assembly. In some cases more fittings may be supplied than are required.

## STEP 1

Use a clear, flat, soft surface to avoid bumps or scratches.

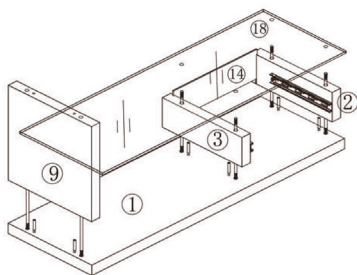

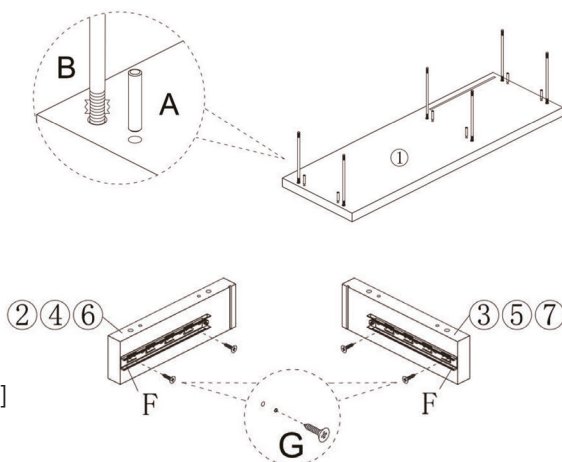

Take top panel [1]. Screw in 6 x dowel rods [A] and 6x rods [B] into holes as shown.

Next, make up all 6 of your drawer runners. there are 3 drawers, each with a left and right side boards. Each side board has a runner.

Make sure you identify which are left side boards [2], [4] and [6] and which are right side boards [3], [5] and [7].

Screw runner [F] on to each side board using 2x screw [G].

 **ATTENTION:** Be careful not to over-screw beyond the thread stops.

## STEP 2

Slot 1 x little back board [14] into the grooves of side boards [2] and [3] to make 1 drawer support. **Make sure you're using the correct back board - back board [14] is the widest of the 3 back board pieces (this is the deepest drawer).** Thread this onto the rods you attached to the top panel in Step 1, as per diagram.

Attach the side stand panel [9] to the top panel by threading it onto the rods you attached to the top panel in Step 1, as per diagram.

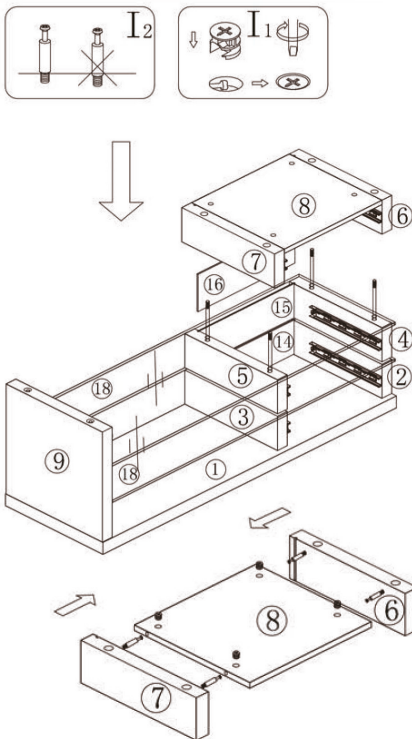

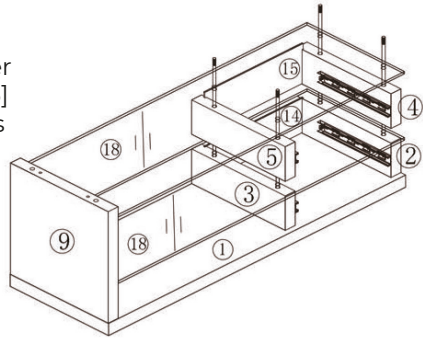

Next, carefully lower 1 x tempered glass shelf sheet [18] onto the rods.

### STEP 3

Repeat Step 2 to make the next drawer support, using the little back board [15] and side boards [4] and [5]. Thread this onto the rods and then lower on 1 x tempered glass shelf sheet [18]

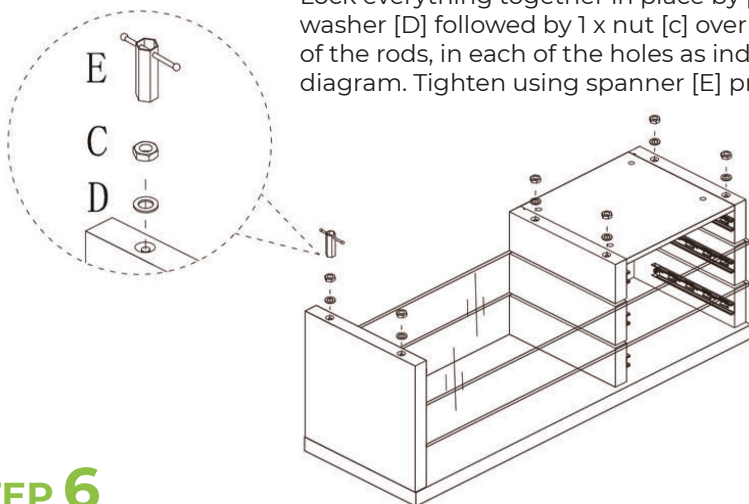

### STEP 4

Construct the final drawer. Connect side boards [6] and [7] to bottom board [8] using 4x cam bolts and locks [11] and [12]. **Don't over-tighten the cam bolts [12], you could split the wood.** Lock bottom board [8] into place by twisting the cam locks [11]. Then slot little back board [16] into the grooves on the side and bottom boards.

Lower this last drawer onto the rods, as per diagram.

## STEP 5

Lock everything together in place by placing 1 x washer [D] followed by 1 x nut [C] over the ends of the rods, in each of the holes as indicated on diagram. Tighten using spanner [E] provided.

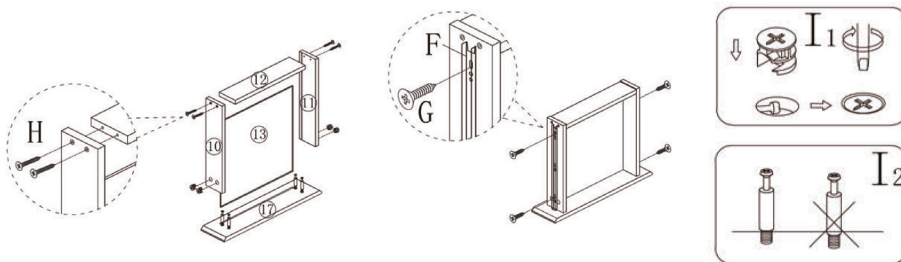

## STEP 6

Construct your drawers.

Connect 1 x left drawer side board [10] and 1 x right drawer side board [11] to 1 x drawer back board [12] using 4x screws [H] as per diagram. Slot drawer bottom board [13] into grooves on side and back boards.

Attach drawer front board [17] using 4x cam bolts and locks [I1] and [I2] as shown in diagram. Don't over-tighten the cam bolts [I2]. Twist cam locks [I1] into place by twisting.

Finally, attach 1x thin drawer runner [F] to either side of the drawer using 2x screw [G] per runner.

## STEP 7

Repeat Step 6 for your other 2 drawers.

Carefully, and with help, flip your unit over so it's now correct side-up. Drawer supports will be on the left.

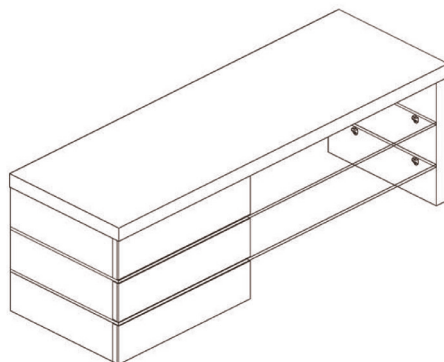

Attach the 4 x glass shelf supports [J] using screw [K]. 2 supports per shelf, front and back, as per diagram.

## STEP 8

**ATTENTION:** Carefully slot your drawers into the supports.

Your TV stand is now ready to use.
